6 x 22 mm D rings

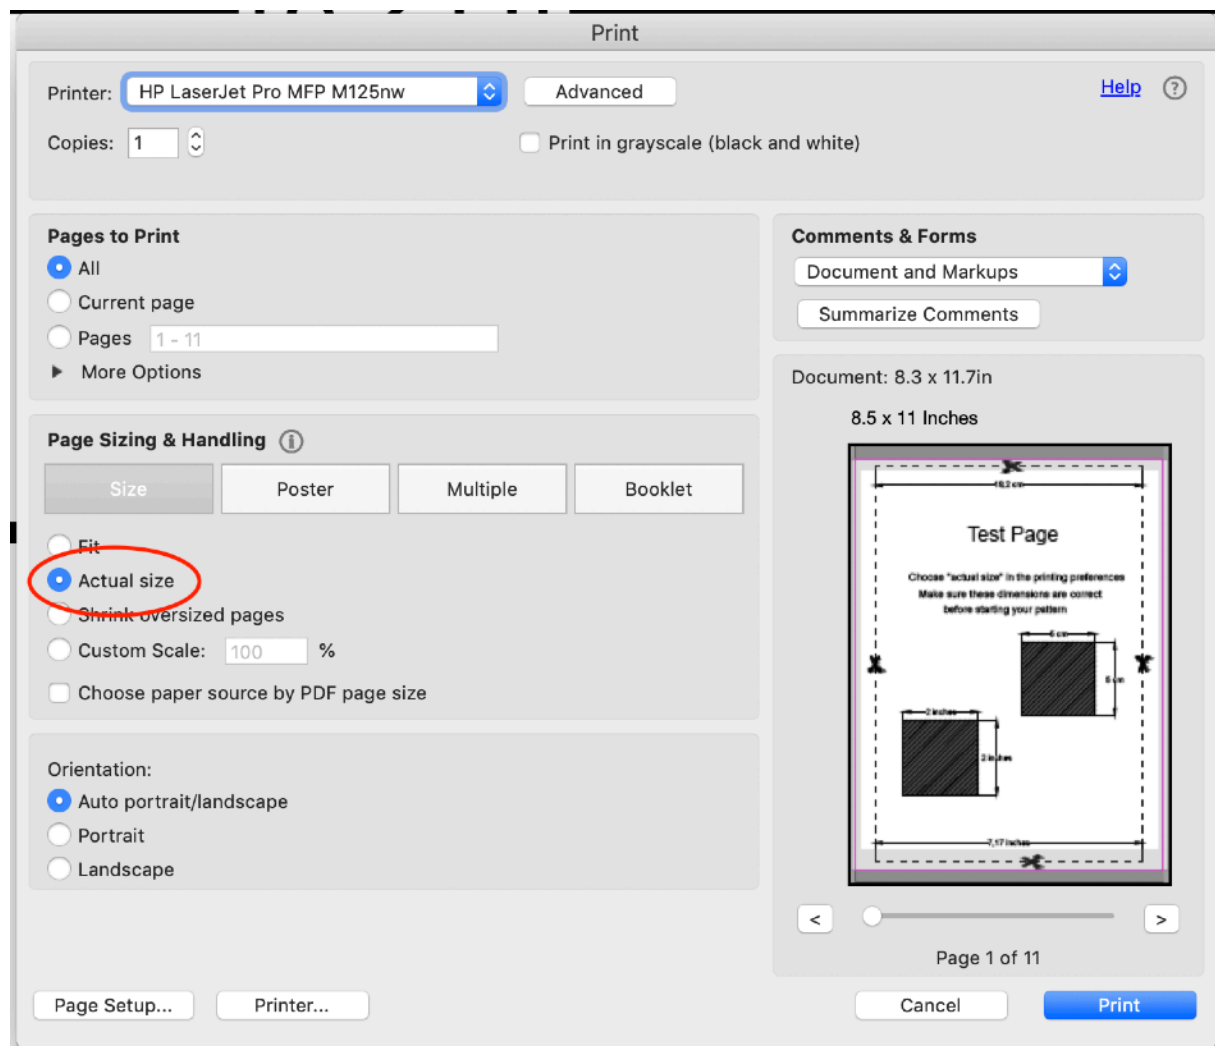

2 x 25 mm buckles — — —-> <https://goo.gl/AEyRfj>

2 x 20 mm buckles — — —-> <https://goo.gl/Ynzxvr>

A few rivets

PRINTING THE PATTERN

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns. Take note that some of the larger parts are spread over two or even four pages. Use the second page of the pattern as an assembly guide.

In order to further help with your build, we filmed the entire process of a similar bag from the start to finish. Please access your instructional video here:

<https://youtu.be/Eri-TCFQEpU>

Even though the dimensions are different this backpack and the bag in the video have similar pieces and the constructing process is the same

The only difference is the additional straps attached to the back piece.

**Attach these as shown in the pictures below BEFORE stitching into
place the inside pocket
Start with the D ring holders at the top**

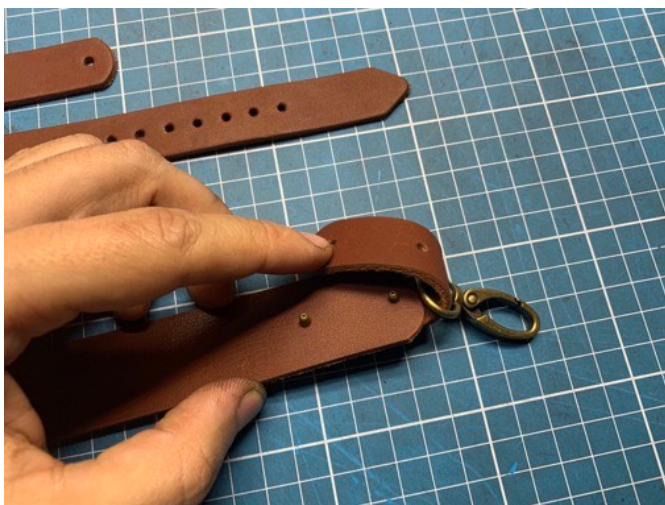

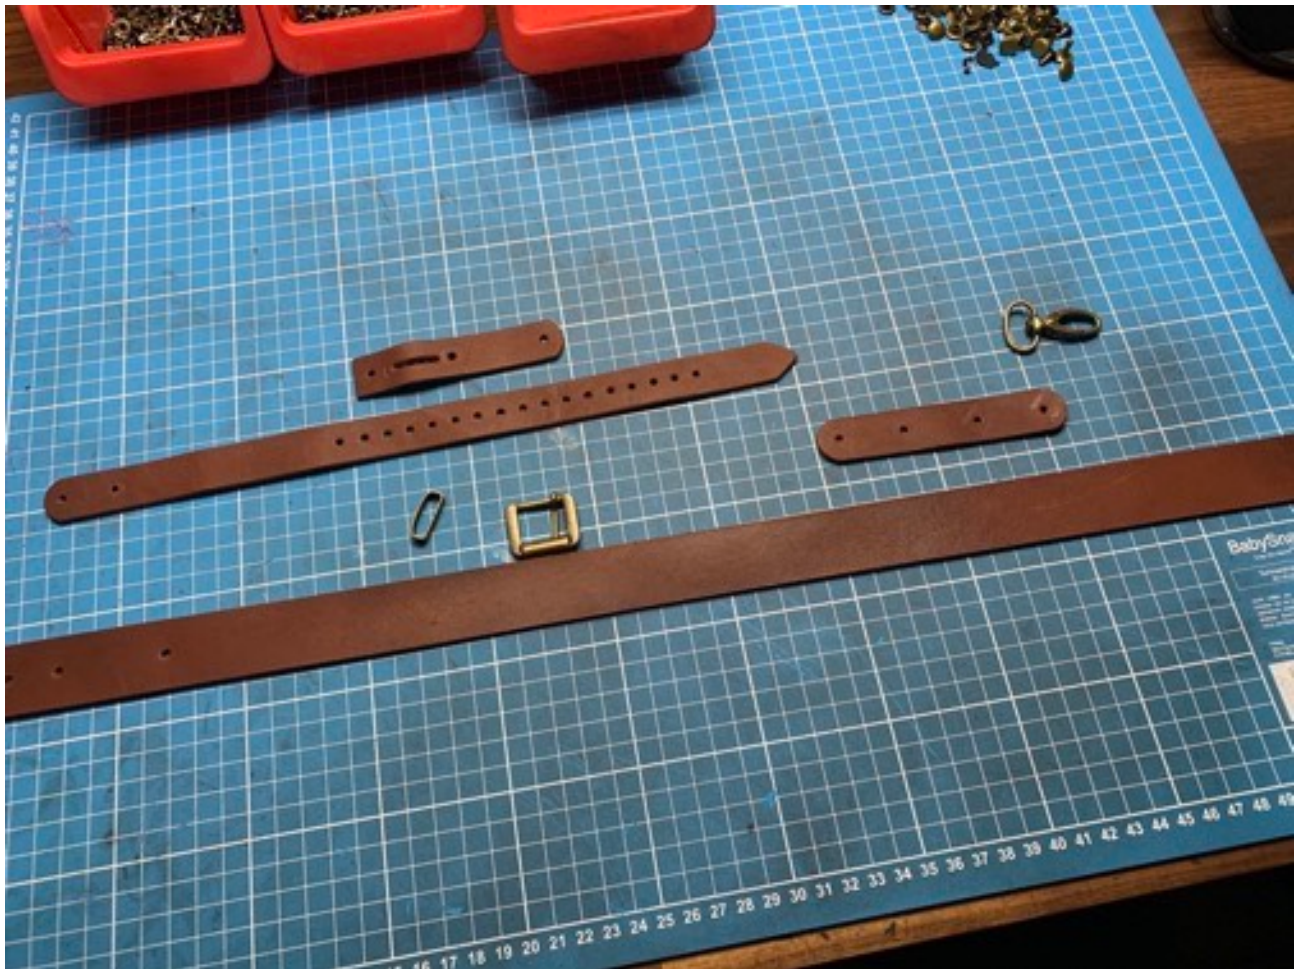

There are also two D rings straps at the bottom of the piece.

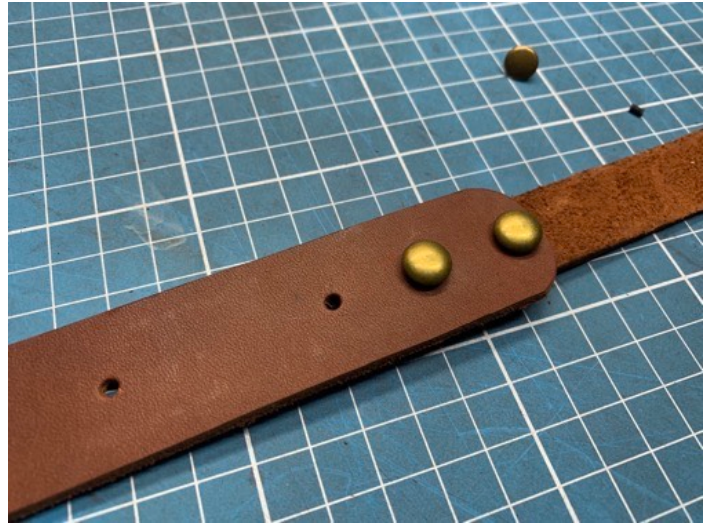

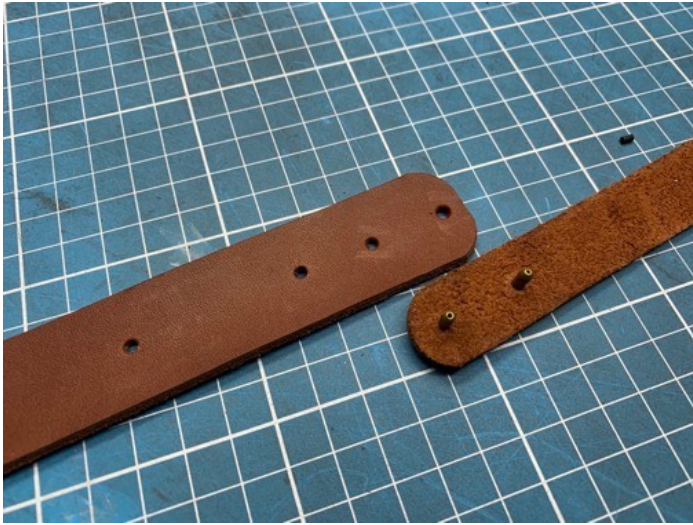

Once finished you will have the back piece ready to hold the back straps

For the back straps I propose a simple design as shown in the pictures below. Feel free to cut the straps as long or as short as you need to fit you.

Your backpack
has now straps!

Would love to see what you did, so please share or leave a review on Etsy.
