

Assembly instructions

Difficulty level:	advanced
Completion Time	12 - 18 hours

NECESSARY TOOLS

B&W Printer

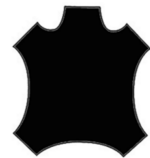

Scissors or a cutter

Hole Puncher (We recommend 1.8 - 2 mm sized holes for this build)

Approx 5 square feet of leather. (We recommend 6oz leather for this build)

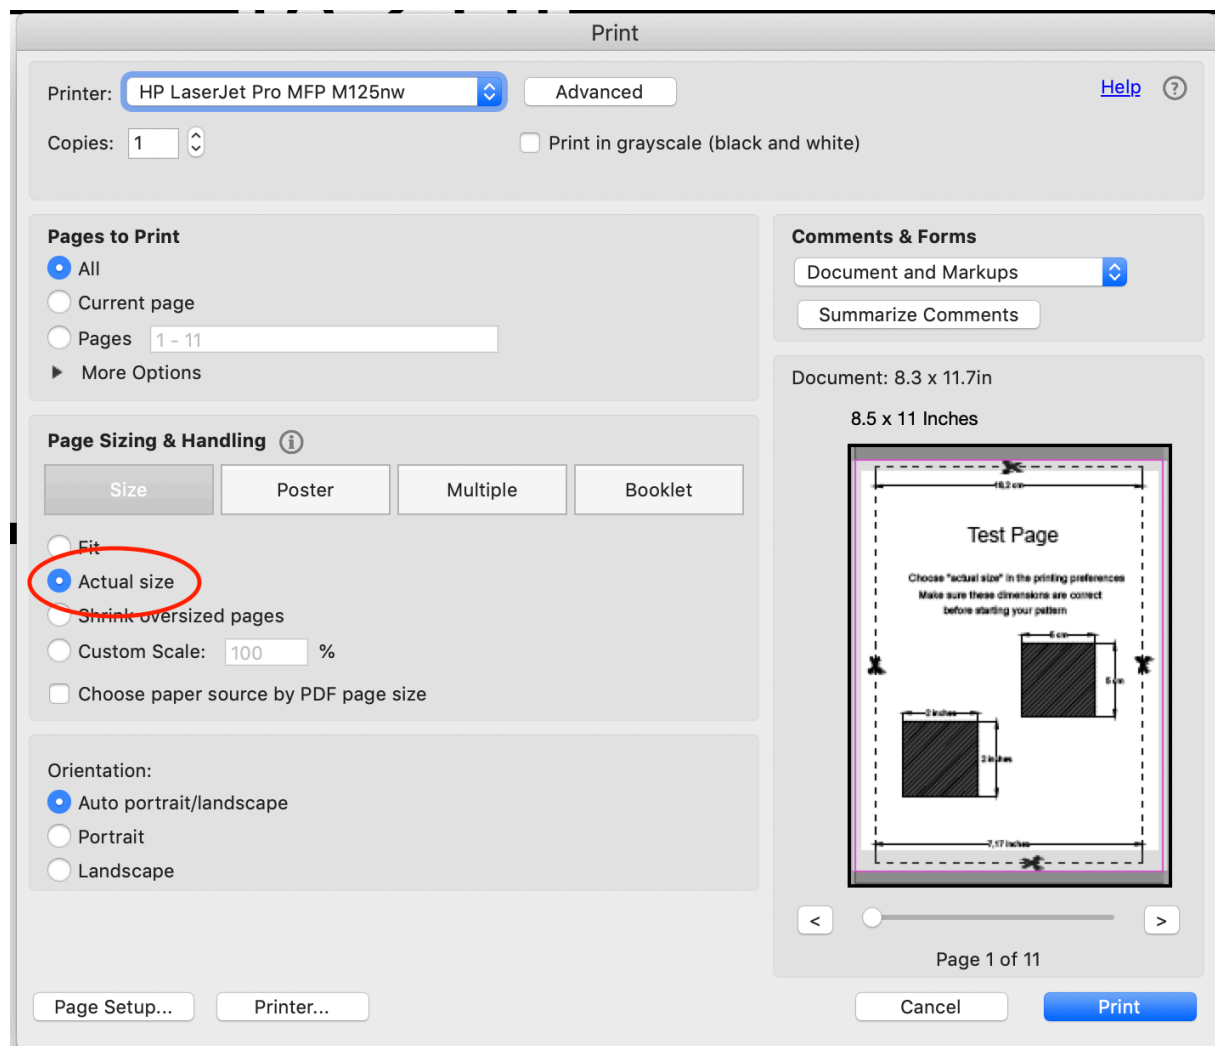

Thread and needles (We recommend 1.2 mm waxed thread for this build)

3 x 20 mm Buckles and a few rivets

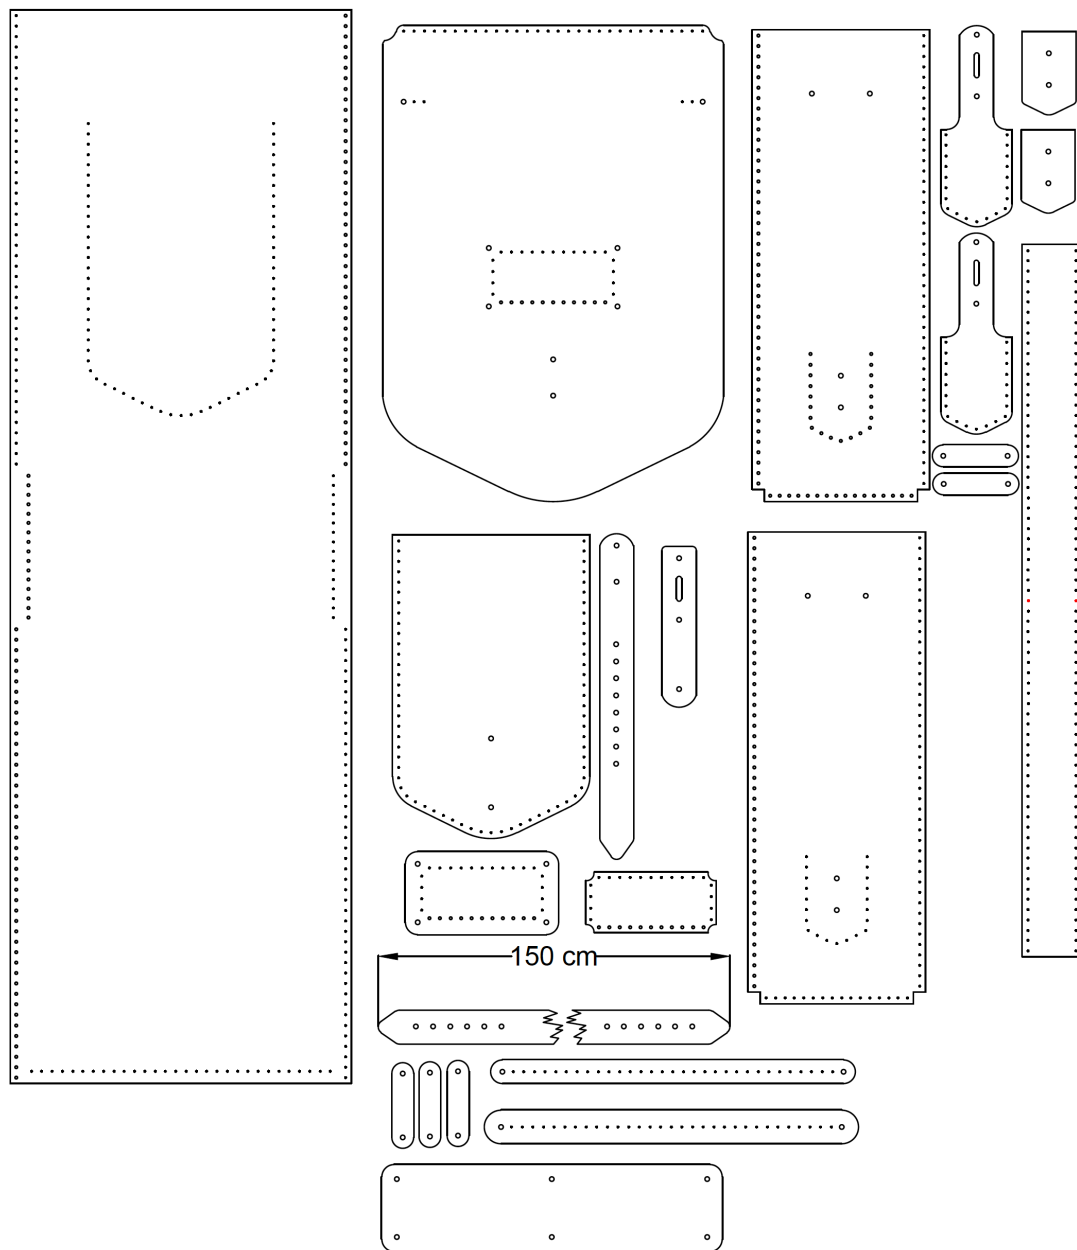

PRINTING THE PATTERN

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns. Some of them are spread over a few pages so I used letters and numbers and a diagram so it is clear how they should be placed and pasted together
Once you are done you should have all the pieces shown here

In order to further help with your build, we filmed the entire process from the start to finish.
Please access your instructional video here:

Would love to see what you did, so please share or leave a review on Etsy.

Stuck and need help? go ahead and send us a message, someone is always around to give you a hand

Thank you for constructing your mask with our patterns

To further help all our clients we created this FaceBook group for everyone to share ideas and stay up to date with the latest patterns available.

Please follow the link below to join.
